Guryo badan, goobo ganacsi iyo beero ayaa waddo halis ah ku yaala haddii ay Wabiga Cagaaran ku timaado fatahaad khatar ah.

Fatahaadda Dooxada Wabiga Cagaaran

Dadka degganayaasha ah, goobaha ganacsiga iyo beeraha ka hooseeya biyo-xireenka Howard Hanson (Howard Hanson Dam) ee ku dhix yaala Dooxada Wabiga Cagaaran waa inay imminka diyaar u noqdaan khatarta dheeraadka ah ee fatahaadda.

Khatartan dheeraadka ah waxaa ugu wacan biyo si xawli ah u soo galaya gebiga (bank) ciidda ah ee biyo-xireenka kadib markii la helay biyo aad u tiro badan jiilaalkii la soo dhaafay. Illaa iyo inta Kooxaha Injineerada ee Ciidanka Maraykanka (U.S. Army Corps of Engineers) (Corps) ay ka samaynayaan dayactirka, waa in la xaddidaa xaddiga biyaha soo fatahay ee ku kaydsami kara gadaasha biyo-xireenka.

Haddii uu roob dheer oo culus da'o xilligan fatahaadda (qiyaastii Oktoobar illaa Maarsa), guryo badan iyo goobo ganacsi ee dooxda ku yaala kuwaasoo aan sida caadiga ah arag biyo daad ah—ay ku jirto Qaybo Auburn ka mid ah, Kent, Renton, South Seattle iyo Tukwila—waxaa dhici karta inay daadad ku soo fatahaan.

Daad-gurayn (evacuations) bulshooyinka qaarkood waa suurtogal. Khadadka waawayn ee safarka iyo adeegyada sii-maritaanka waa ay qasmayaan, iyo inay dhacdo koronto tegis iyo in biyo-mareenada dhulka hostiisa ay buux dhaafaan xitaa degaanada ka baxsan aagga fatahaadda.

Diyaar u noqo imminka sidii aad u caawin lahayd qoyskaaga iyo gurigaaga inay noqdaan kuwo nabad qaba marka uu roobku yimaado.
